Important from Mexico, the Lib. eralists about used up.

From the Daily Times of New York, we take the following extracts of the present state of the prominent parties, now weeking for an promisey in the Republic of Maxico. The news s important, as it indicates the approaching collapse of the so-called "Liberal Party, whose President is Judge Juarez, and whose "Capital" is Vera Cruz.

The army of the Church Party, led by Gen. Doblado, have bad a petched lightle with the Liberals, under Gen. Wool, near Leon resulting in a bad defeat to the latter. Pushing on his in a bad deleaf to the latter. Fushing on his success, Ibeliado next marched upon and took powerious of the important city of San Lans Ports! Nor in this all. a Vice President in the Capital to look after allegs in his absence.

While the Church Party are thus straining every nerve to annihilate their opponents, the aiter support to be meapable of doing anything to ward off the blow. They had all along been calculating so confidently upon "material aid." from the United States, that they seem with characteristic improvidence, to have neglected to turn whatever means themselves possessed to a proper advantage; and hence to oppose Marsuma, they have but little elso than a handrupt exchanguer and an ill appointed sermy characteristic pay. The "material aid" that was expected from the Australia, id that was expected from the Austriania, if Junear had had the moral courses to sign the donners had had the moral veerage to sign the Melana train, estimat striking from it the provision to give us permission to protect the transitrontes, in case Mexico was unable to do

Thus, things are approaching another important erisis. In a few weeks, the signs are, that another battle will be fought, near Vera Cruz, which will sweep from existence one or the other of the two factions.
